Mr. Kloser,

After over two years of research, and attempts to convince our board and association the Yakima Valley Soccer Referees Association chose Official Assignor as our on-line assigning program. From the beginning Steve Kloser gave us excellent support. When we made a mess of things, he always had the answer. As we became familiar with this system, we realized that it has capabilities far beyond a simple on-line assigning program. We have just finished our first full season, and the assigning, and accounting features completely proved themselves. Our treasurer had experience with The Arbiter, and he is now a fan of Official Assignor. The support, flexibility, and functionality are the reasons we heartily recommend Official Assignor to any sports officiating group.
